Address	Paperimestarintie 4 A 3
	40250 Jyväskylä
Date of birth	01.03.1991
Phone	+358458844753
E-mail	juuso.sav@gmail.com

ABOUT ME

I am a 34-year-old service-oriented and proactive job seeker from Jyväskylä. I hold a Bachelor's Degree in Hospitality Management from JAMK University of Applied Sciences, where I majored in Facility Management. Through my studies and internships, I gained valuable experience in customer service, residential leasing, and office administration — including client relationship management, drafting contracts, and reporting.

Professionally, I have worked in the real estate sector in customer service roles and as an employment services specialist. I enjoy working collaboratively to find practical solutions and value the opportunity to create positive experiences for both clients and colleagues.

In addition, I have a hobbyist background in programming with C# and JavaScript, as well as in HTML/CSS web development. I also have some experience with Blazor/.NET development. While my previous experience is mostly in customer service and real estate, I am eager to specialize in the IT and technology sector in the future. I believe I have the motivation and skills to succeed and continuously grow in this field.

LATEST WORK EXPERIENCE

22.04.2025 – 29.08.2025	**Newsec Property Asset Management** **Back Office Residential Property Coordinator (summer position)** Customer service for residential tenants via phone and ticketing system; coordination of leasing and property-related matters.
